KANSAS PRAISING IT.

"While I was in Topeka last Winter," said the Hon, Arthur Edgington, "I had a pretty rough time of it. I got a bad cold, and, then that not being sufficiently severe, I was also attacked with rheumatism. The pain was in my left shoulder. At times I almost writhed in agony. I tell you sir, that the pain could not have been greater had my shoulder been screwed up in a vise. I was utterly helpless, and felt like I was destined to remain in that condition indefinitely. My friends and a physician were generous in their prescriptions and my room soon became a miniature apothecary shop. But nothing did me any good. One day some one tole me I was enduring a great deal of needless pain when I could invest fifty gents in a bottle of St. Jacobs Oil and be cured. I invested in a bottle of the Oil, rubbed it on my shoul der twice, and in two days forgot that I ever had rheumatism. Yes, that is a great rem edy, and no mistake. They can't say too much in favor of its healing power." The above was uttered by Mr. Edgington

while sitting on the porch of the La Gonda House, at Columbus, the other evening, and was overheard by an escaped reporter, who is traveling over the country incog. Inquiry developed the fact that Mr. Edgington is one of the most widely known men in Kansas, figuring prominently in politics, and acting as the responsible agent of the Bradstreet Commercial Agency. Upon subsequently making Mr. Edgington's acquaintance the reporter was assured that all he had heard was true, and he was at liberty to use it in the papers. - Oswego (Kun.) Democrat

T. T. HAYDOCK,

This firm is now in its sixth year of existence, and the rapid and permanent growth it has made is something unprecedented in the history of carriage building. Its permanancy and growth have been accomplished not by any special effort at "drum-ming" the trade, but by the excellency of the work produced, and by the low price at which il is work has been sold. Another great feature of its success is in the STYLE of the work produced. It is too often the case that in low priced work the style is correspondingly low or common in appearance. But all goods manufactured by T. T. Haydock, are made in a stylish and artistic manner, thus adding beauty to quality. This firm does not build the lowest grade, nor the lowest priced work in the market by any means, but is making a specialty of a medium grade full leather top buggy at a very low price for the quality; and is offering special inducements to the trade to buy in large quantities.
